

atMotion (Comprehensive Motion Device Management Program)

■ atMotion Overview

NEW

atMotion is a comprehensive motion device management program that can be used with Autonics motion controller (AiC-D, PMC-2HSP/2HSN, PMC-1HS/2HS, PMC-4B-PC1). atMotion provides GUI control for easy and convenient parameter setting and monitoring data management of multiple devices.

※Visit our website (www.autonics.com) to download the user manual and software.

< atMotion screen >

■ Features

- **Multiple Device Support**
 - Simultaneously monitor multiple devices and set parameters.
 - Simultaneously connect units of a single device with different addresses.
 - When using ModBus RTU for communication, multiple RS-232 ports are accessible.
- **Device Scan**
 - : When multiple units are connected with different addresses, the unit scan function automatically searches for units.
- **Convenient User Interface**
 - : User can freely arrange windows such as data monitoring, properties, and projects.
 - Saving a project saves the screen layout also.
- **Project Management**
 - : Saving data as a project file includes added device information, data monitoring screen layouts, and I/O source selection.
 - When you open the project file, the last state of the saving moment will be loaded.
 - Organizing project list makes managing project files easier.
- **Print Modbus Map Table Report**
 - : Print address map reports of registered Modbus devices.
 - Modbus map table reports can be saved in html (*.html) and pdf (*.pdf) formats.
- **Multilingual Support**
 - : Default supporting language is Korean and English.
 - User can add a different language, by modifying, renaming and saving the files in the 'Lang' folder.
- **Script Support**
 - : Using Lua Script language allows applying different I/O processes for each devices.

■ Installing The Program

Ⓞ System requirements

< Computer specification for using software >

Item	Minimum requirements
System	IBM PC compatible computer with Intel Pentium III or above
Operations	Microsoft Windows 98/NT/XP/Vista/7/8/10
Memory	256MB+
Hard disk	1GB+ of available hard disk space
VGA	Resolution: 1024×768 or higher
Others	RS-232 serial port (9-pin), USB port

Ⓞ Preparations

Download atMotion program at Autonics web page (www.autonics.com).

Close all programs before you start atMotion installation.

Double-click atMotion setup.exe to start installation.

When Installer Language window appears, select the language and click OK button.

Supporting language is Korean and English.
