

Megohm/Insulation Meter DIM 570

Specifications:

Measurement Range: 20M Ω ,2000M Ω

Accuracy:

- 20M Ω (2.0%rdg + 2dgts), 2000M Ω <500M Ω
(4.0%rdg + 2dgts), \geq 500M Ω (5.0%rdg + 2dgts),
- Test Voltage: 1000V DC approx.
- Resolution: 10K Ω
- Zero: Automatic
- Polarity: Automatic positive implied, negative polarity indication
- General
- Power Requirement General
- Power Requirement: 4 pieces 1.5V (AAA size) batteries
- Dimensions: 6.7"x1.7"x1.6" (170x44x40mm)
- Weight: 6.3 oz(180g)
- Accessories: Test leads,Soft carrying case, batteries, owners manual.

- Measure insulation resistance up to 2000M Ω
- 1000V pulse to test insulation
- 3 1/2 Digit LCD Back light display
- Auto data hold function after releasing MEAS button
- Auto power off function
- Portability and simplicity for one hand operation
- Val ox housing to withstand accidental drops
